

Javier Jimenez

Lighting Programmer · Designer · Crew Chief

Lighting for live
production
Concerts · Festivals
Corporate · Broadcast

San Diego, California (619) 852-5628 javierjproductions@gmail.com English + Spanish

PROFILE

Lighting programmer and designer with almost a decade of experience contributing to concerts, festivals, corporate events, and large-scale live productions. Combines creative programming with practical field experience in crew leadership, electrical systems, technical troubleshooting, and show execution. A committed lifelong learner who continually develops new production, design, and technology skills.

EXPERIENCE

Senior Lighting Engineer / Lighting Designer

Show Imaging, Inc. · April 2022–2025

- Delivered lighting design, programming, and technical execution for high-profile live events.
- Collaborated across production departments during pre-production, installation, and show operation.
- Troubleshot, repaired, and maintained lighting fixtures and control systems.
- Interpreted technical drawings and programmed show environments using grandMA3.

Freelance Technical Director / Lighting Designer

March 2019–Present

- Determined equipment and staffing requirements from production specifications.
- Built production schedules and supported crews through setup, operation, and strike.
- Provided on-site technical troubleshooting, maintenance checks, and staff training.
